

K-Love recently sent me a notice regarding changes in LPFM radio stations. Being a 24yr-old male, I hope my comments will be taken in a different light than someone of an older generation. K-Love has been such a great source of positive influence in our community. I hear people all the time talk about it and how nice it is to have DJ's who have good things to say and not have to worry about sexual connotations or inappropriate conversation with their families and/or children around. The station has encouraged me in both my personal and public life. It would be an incredible detriment to loose them in our area.
